

Especially For Homeschoolers 2022-2023

September 13, 2022 - April 25, 2023

Tuesdays, 10 AM - 1 PM

We are excited to announce Especially for Homeschoolers, 2022-2023. This year, our Rising Scholars will be gearing up for exciting academic challenges, including National History Day and NCAC's Good Old Fashioned Science Fair! Our Smaller Scholars will experience interdisciplinary adventures through a wide variety of engaging clubs, including arts and crafts.

EFH offers students the opportunity to shine, both individually and as a member of a team, fostering self-confidence, determination, collaboration, and a love of exploring and learning.

Every fourth week will feature a field trip. In the past, field trips have included a guided activity at Hard Bargain Farm Environmental Campus, Freer Gallery of Asian Art and lunch at the Sakura Japanese Steakhouse, a show at The Puppet Co., and a guided tour at the Library of Congress. At times, we are able to get reduced-price tickets (\$6/child) to educational shows at the Kennedy Center, which we will also make available to your family.

Parents are an integral part of our EFH program, assisting with teaching, character development, and field trips. This is not a drop-off program.

Age Groups:

Smaller Scholar Clubs:

Ages 3-5 (PreK)

Ages 5-7

Rising Scholar Clubs:

Ages 7-9

Ages 9-11

Ages 11-14

Class maximum: 8 children

Daily Co-op Schedule:

9:45 AM: Arrival, Club Set-up and Free Play
